Experience

Adage Technologies

// 07.2013–Present FULLTIME

As a Web Designer at Adage I fulfill a dual role of design and Front End Development. I am responsible for managing projects and communicating with clients effectively. My role offers a great deal of autonomy and demands self-motivation and accountability. In addition I am also an effective team mate and consistently work with my coworkers to collaborate and help each other succeed.

Groupon, Inc.

// 01.2011–07.2013 FULLTIME

I worked in Image Design where I provided high quality imagery for our daily deals while consistently meeting quota. I also managed my own time quite frequently on a variety of projects including designing and developing concepts for Editorial initiatives.
